

2023-CSE1ICB(BE-1) - INTRODUCTION TO CYBERSECURITY

[My LMS Subjects](#) / [2023-CSE1ICB\(BE-1\)](#)

CSE1ICB Home

Information is a valuable commodity - to individuals, to organisations and to governments. Cybersecurity is the discipline of protecting this information as each of these three actors transact online with each other. Cybersecurity is both a broad and deep field of theory, practice and technology. As a cybersecurity professional you will benefit from a thorough understanding of many different topics - information technology, geopolitics, psychology, threat and risk management, software development, cryptography and computer networking. We will touch on all of these as we explore the fundamentals of keeping understanding and preserving information safety. Our schedule this semester is shown in the table to the right.	Week	Commencing	Topic	Lecture	Lab
	1	28th February	The Cyber Story	Yes	No
	2	7th March	Application Security	Yes	Yes
	3	14th March	Network Security I	Yes	Yes
	4	21st March	Network Security II	Yes	Yes
	5	28th March	Threats & Risks I	Yes	Yes
	6	4th April	Threats & Risks II	Yes	Yes
	BREAK	11th April	Mid-semester break	No	No
	7	18th April	Cryptography	Yes	Yes
	8	25th April	Identity & Access	Yes	Yes
	9	2nd May	Data Security I	Yes	Yes
	10	9th May	Data Security II	Yes	Yes
	11	16th May	Secure Operations	Yes	Yes
	12	23rd May	Revision	Yes	No

Required Software

::Network traffic capture & analysis: Wireshark

Wireshark is the most often-used packet sniffer in the world. Wireshark is **a network protocol analyzer that is able to captures packets from a network connection**, such as from your computer to your home office or the internet. Packet is the name given to a discrete unit of data in a typical Ethernet network.

Download link: www.wireshark.org (latest release)

::Network simulator: Packet tracer

Packet Tracer is a cross-platform visual simulation tool designed by Cisco Systems that allows users to create network topologies and imitate modern computer networks.

Download link: <https://www.netacad.com/about-networking-academy/packet-tracer/>

* Note that: for downloading Cisco Packet Tracer, you need to register first in Cisco Networking Academy.

Lectures, Labs and Consultation:

::Lectures

(commencing Tuesday 28th February, 2023)

Group	Day	Time	Venue
LT01 (BE)	Monday	11am-12 pm	BUS-108- Bendigo

::Labs

(commencing Tuesday 7th March, 2022)

PS2-01-123 | Cisco Lab

Group	Day	Time	Venue
CL01-01 (BE)	Thursday	10 am - 12 pm	BUS-153/ COMPUTER LAB 2 Bendigo

:Consultation

(commencing Tuesday 7th March, 2022)

No fixed consultation hour; please arrange a time to meet/see me.
